DETAILED ACTION

Status of Claims

1. Pursuant to amendment filed 16/11/2003, claims 10,11,76-78 are canceled. Claims 1,56-63,67-75,79,82-88 are pending.

Double Patenting

2. Rejection over U.S. Patent Nos. 6004925, 6037323, and 6265377 is withdrawn in view of Applicant's arguments.
3. Rejection of claims 56-75,79, 82-88 over claims 22, 26-28,57-76 of copending Application No. 09/453833 is withdrawn in view of filing a Terminal Disclaimer.
4. Due to inadvertent error, Examiner did not indicate the number of application to which claims 1,77-96,101 belong (as mentioned in the provisional rejection in the previous Office action, p. 3, last paragraph. The application, 09/453841, in the meantime has matured into US Patent 6,573,239. The following double patenting rejections are made over said US Patent.
5. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new

Art Unit: 1631

and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Claims 1,56-63,67-75,84,86,88 rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1-21 of prior U.S. Patent No. 6,573,239. This is a double patenting rejection.

6. Claims 85,87 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 19-21 of U.S. Patent No.6,573,329. Although the conflicting claims are not identical, they are not patentably distinct from each other because, as the referenced patent claims N-or C-protected peptide analogues, selection of commonly used protecting groups would be obvious to one skilled in the art.

7. Claims 82,83 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 26,31-34 of U.S. Patent No.6,573,329. Although the conflicting claims are not identical, they are not patentably distinct from each other because, as the referenced patent claims pharmaceutical composition, selection of a particular form of formulation would be obvious to one skilled in the art.
